Prices are for White, U.S. made, 100% Cotton Heavyweight T-Shirts, printed on one side (multiple location printing is available, just ask). Many colors are available, prices may vary slightly by color. For example dark colors (such as black) are generally \$1.00 more per shirt. Ask about our custom dyeing services if a special color is required. Additionally, long sleeve T-shirts are approximately \$3.00 more per shirt. Note: When printing on dark garments, it is necessary to print a white "underbase," this allows the overprint colors to remain true, additionally "underbase" colors need to be "flash cured." Please remember this when creating your design or, if this is not clear, ask and we will assist you. Let us know what you need and we can give you quick, precise quotations.

There are many brands and types of garments available, we will be happy to assist you in choosing the correct garment for your needs. We offer hundreds if not thousands of different garments and products for your printing needs, from cups to rubber bands to custom manufactured and embroidered baseball caps. This sheet is meant to give general information to help with getting your project underway.

When designing artwork, to be printed on garments, please feel free to call (or have your designer call) and ask for assistance or advice. We are professional screen printers and designers, we know what works well and what will offer the best possible results, it's our job. We can offer several tips and suggestions for cost effective high impact images.

We hope this list will give you the information needed to begin the next step of your project. You have made a good choice by calling on Babyfaced Productions. We look forward to continuing a pleasurable relationship with you and or your company for years to come.
